

Insulating Pad

Insulating pads are designed for use with the 379 series Sirius and Orbit cleats. They are designed to prevent bimetallic corrosion between the cleat and the substructure. They should be used in instances when installing a stainless steel cleat onto a galvanised steel substructure.

Insulating pad

Insulating Base	Suitable for cleat size	
	379TC-	379SC-
3900010	01 - 07	01 - 08
3900011	08 - 12	08 - 12
3900012	13 - 16	13 - 14
3900013	17 - 19	-
3900014	20 & 21	-
3900015	22	-

Adaptor Plate

Required when mounting smaller cleats directly onto 41mm wide channel.

Adaptor Plate

Reference Number	Adaptor Plate Description
380AG02	M10 (Galvanised)

Packing Piece

Required when stacking claw cleats.

Claw Cleat Packing Piece

Reference Number	Packing Piece Description
389AC03	aluminium alloy, plain
389AC04	aluminium alloy, epoxy coated
