
Preparing and printing your labels.

Labacus® Innovator Software. Evolution and not revolution.

Since 1997 Silver Fox has been implementing a continuous schedule of software development. Additionally, we often receive feedback from our engineering customer base across the globe, wherever possible we integrate these ideas into future releases. And in conjunction with our unique automated web update functionality, updates are available to all our users.

Depending on the level of software chosen these regular updates have included:

- Fox-in-a-Box® automatic USB port identification for true Plug'N'Play
- Colour fonts and backgrounds
- Resistor Colour coding
- Multiple list capability
- Barcodes and QR codes
- Video help incorporated Barcodes

And many more.... all designed to make your work easier and more straightforward and save you time and frustration.

So, our thanks to all those engineers who have taken the time to assist us in this way. Today more than ever time savings are critical.

TIP - Time into Profit®

LICENCE AND SUPPORT FEES

There is a one off license fee* that is on a per desk basis. Multiple desk licenses are also available.

*If you need to transfer the software to another PC there will be a £30 administration fee to issue a new licence.

UPGRADES

To protect your investment, should there be a need for higher levels of functionality, you can seamlessly upgrade to a higher level. To make this easy and cost effective, the upgrade price is the current incremental cost between the levels, plus a small administration fee.

We offer 4 levels of software, the Labacus® Innovator-Lite, includes **Free trials** of Basic/Advanced/Professional each for 3 separate days (9 separate days in total) www.silverfox.co.uk/products/labacus-innovator-software/

PRODUCT DATASHEET

Labacus® Innovator Basic Software

Labacus® Innovator Basic is pre-loaded with the templates for all the Silver Fox label range, making it ideal for simple builds.

- Cut & paste into software from any Windows application.
- Type in information or generate a sequence.
- Save / recall jobs in the normal windows way.
- Print Thermal Labels

For A4 laser labels print using an ordinary office laser printer. However, for thermal labels please review our Fox-in-a-Box® starter pack.

Trial each of Advanced and Professional levels for 3 separate days as part of the software download.

PRODUCT DATASHEET

Labacus® Innovator Advanced Software

Labacus® Innovator Advanced includes everything from the Basic level. Additionally, import/merge columns from csv file. Manually override font auto-sizing.

Produce multi-line jobs, save time on constructing jobs using patented “cogging” functionality. Produce more than one build in same job.

In addition to printing A4 laser label sheets with ordinary office laser printer, the Advanced level of the software also includes options for colour / font/ background / resistor colour coding (colour laser required).

For thermal labels please review our Fox-in-a-Box® starter pack.

Version Comparison

There are 4 levels of software: Lite, Basic, Advanced and Professional.

You can seamlessly upgrade between levels at any time.

Keeping You Up To Date

Our Professional software is equipped with unique automated web update functionality. Licensed users automatically receive these updates over the web FOC. Non-web enabled Licence holders can contact our sales
