The 801 Series Mega Snake® is pre-manufactured in straights, turns, tees and crossing sections so no material waste is created. This system has an accessory rail that allows the tray to be mounted without the need for under support. It also provides a place to mount equipment such as patch panels and electrical boxes. The 801 Series Mega Snake® is a UL Classified Equipment Grounding Conductor (EGC).

Note: These products are manufactured with center support rail for center hanging options.
