

Mechanical Cable Cutter

Power. Connected.

Cuts Cu/Al cable up to a diameter of 62 mm, alloyed AC overhead lines and BLX up to 241 mm² (not FeAl).

EIPRESS

HKS62

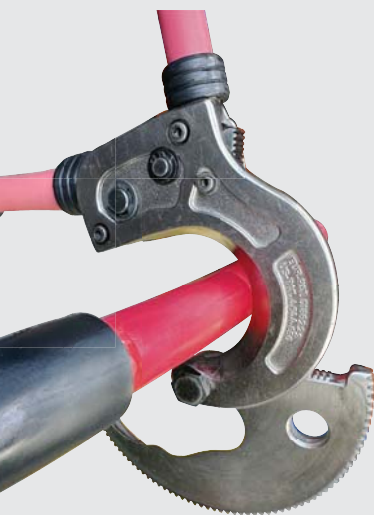

Art.nr: 5117-504200
EAN code: 7393487012929

Place Power in Your Palms - More than just a tool, the **Elpress HKS62** cable cutter is an indispensable companion for electricians and telecom workers.

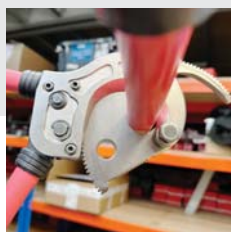

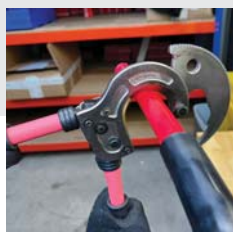

Easily cutting through copper, aluminium or AC overhead lines, it can impressively handle cables as thick as 62mm. Soon you'll question how you ever managed without one!

Why Choose HKS62?

- **Professional Grade:** Engineered for professionals in the electrical and telecommunications fields, the HKS62 ensures top-notch performance.
- **Superior Cutting Capability:** Effortlessly slice through cables up to a diameter of Ø 62mm without leaving any frayed edges or uneven results.
- **Ergonomic Brilliance:** The ergonomic handle and ratchet mechanism provide unparalleled comfort and control, even in the most challenging work conditions.
- **Versatile Functionality:** Whether it's Cu and Al cables or Al-alloyed AC overhead lines, the HKS62 handles a variety of materials up to 241mm² with ease*.
- **Reliable Durability:** The HKS62 comes with a durable textile bag, ready to accompany you on every job.

Comes with a durable textile bag
