

PCT54C

- easy and safe operated electric cable cutter

PCT54C is a high-quality and ergonomic electric cable cutter. The tool is designed to cut conductors easily and safely at the touch of a button. PCT54C has a Li-Ion battery with a long run time and short charging time, which makes working more efficient. The precision-ground blade on the cable cutter ensures a longer useful life and an optimum cut.

PARTICULARS:

- Electric cable cutter for copper and aluminium cable
- Not intended for cutting steel
- Max cutting diameter 54 mm, which for the following cable types is the equivalent of:
 - 1 kV Cu type FKKJ 4 x 95 mm²
 - Al type AKKJ 4 x 240 mm²
 - Al type SE-N1XV 4G x 240 mm²
 - 12 kV Al type AXLJ 3 x 150 mm²
- The tool has a scissor action when cutting, which produces an optimum cut
- Integrated fuse as overvoltage protection
- CE-marked
- Delivered with case and battery, 14.4 Li-Ion

TECHNICAL DATA PCT54C:

Battery voltage	14.4 V
Battery capacity	3 Ah, Li-Ion
Charging time	approx. 40 min
Weight including battery	2.75 kg
Dimensions	105 x 375 x 115 mm
