

# BR1 Skid Type Corner Cable Roller

The BR1 is a medium duty corner cable roller for use in most cable laying applications. These can be used singularly or linked together using link pins (LP1) to form a full bend. All of the bend roller range have the same link points to facilitate various bend/roller configurations. The bottom roller passes through the skid plate to ensure the pulling bond or cable cannot get trapped or damaged

- Medium duty corner roller from pressed steel sections
- 76mm diameter tubular horizontal steel roller
- 3mm pressed vertical skid plate
- Oil impregnated maintenance free bushes fitted
