

HR3 Hanging Roller (Heavy Duty)

The HR3 hanging roller enables cable to be suspended and winched into position prior to fixing on to tray or cable racking. Similar to the HR1 but fitted with a solid steel roller and heavy duty hook, normally used on heavy cable applications or on the initial roller when lifted from floor to cable rack. The cable roller is suitable for cables up to 120mm diameter with a weight capacity of 150Kg

- Heavy duty tubular steel construction
- Hinged gate for cable extraction
- 1 off 76mm diameter solid steel roller
- Sealed precision 20mm roller bearings fitted
- Zinc plated finish
- Size: 25cm long x 11cm wide x 41cm high
- Weight: 9Kg
