Promotion description The Elpress RPL2258 is an assortment box containing terminals and the popular T2258 - a certified crimping tool for uninsulated tube terminals of 4-16 mm². The handle length means that the final phase of the crimping process can be done using both hands, which enhances both comfort and efficiency.

The box is made of unbreakable plastic with polypropylene walls and a polycarbonate lid. Practical and safe design for stacking. Comes with removable inserts, perfect for easy refilling of terminals. Handle and closing device are fully integrated into the design, making it very easy to handle.
