

◆→ TOLERANT BLOCKS

Hawke HF tolerant blocks are designed to accommodate cables/pipes passing through the frame. Our special design incorporates five contact points which allows the blocks to accommodate a range of different diameters and accept variances in cable/pipe diameter. Each block has a sealing range of 3-4mm without the need for any onsite modifications.

Also, Hawke's unique inspectable colour code make installation easier, faster and allows a visual inspection of the transit when complete.

CHARACTERISTICS

- ◆ Made of zero halogen, intumescent elastomeric polymer.
- ◆ No modification of the block needed during installation. Zero waste material.
- ◆ Four sealing grooves within the internal faces ensure correct contact all along the cable/pipe.
- ◆ Minimum and maximum sealing range is marked on the blocks. Also, the colour-coding allows for correct visual inspection. Our system can be visually inspected at a glance.

DESCRIPTION	L (mm)	CABLE AND PIPE DIAMETER		WEIGHT (kg)	COLOUR
		MINIMUM (mm)	MAXIMUM (mm)		
HF153	15	3	5	0,02	Red
HF155	15	5	7	0,02	White
HF157	15	7	9	0,01	Blue
HF203	20	3	6	0,03	Green
HF206	20	6	9	0,03	Pink
HF209	20	9	12	0,03	Brown

◆→ WAVE GUIDES

- ◆ Hawke manufacture a range of blocks to suit the most popular waveguides sizes. (See table) Please note that other sizes can be made to order. Please contact our Sales Department with details.
- ◆ Hawke wave guide insert blocks are used inserted in standard HF Blocks.
- ◆ To ease assembly and guarantee system performance it is a requirement that cables enter and exit the aperture perpendicular in all axis to the face of the frame.

* Packing strips are supplied as solid strips or with strips pre-cut or scored into individual blocks:
TA10 (1 solid block 120x60x5 mm) **TA100** (1 solid block 120x60x10 mm)
TA50 x 24 (24 pieces 5x60x5mm) **TA100** x 12 (1 block pre-scored x 12 pieces 10x60x10 mm)
