

Trace the underground.

**3M™ Locating and
Marking System.**

Stress-free management and maintenance of underground assets requires tools you can depend on. 3M's integrated locating and marking solutions are engineered to help bring you peace of mind as you take on your toughest challenges.

Marker burial depth chart

Save time and money by quickly pinpointing the location of buried assets with 3M™ Point and Path Markers and our Electronic Marking System (EMS) technology. Designed to be placed in various ranges of burial depths, our markers protect your critical assets wherever they are.

Note: burial depths are approximate. Review the marker specification sheet and locator compatibility for precise indication of burial depth for each of the marker models.

3M™ Path Marking Tape

A maintenance-free solution for marking and locating

3M™ Electronic Marking System (EMS) Warning Tape 7900-XT Series and 3M™ EMS Caution Tape 7900 Series provide a virtually maintenance-free solution for marking and locating the path of underground plastic pipes and conduits. Together, they help eliminate problems and costs associated with tracer wire and test stations.

The 3M™ EMS Warning Tape 7900-XT Series and 3M™ EMS Caution Tape 7900 Series are both embedded with markers that are activated using the 3M™ Dynatel™ Locators 7000XE Series. The EMS Warning Tape 7900-XT Series also includes an additional high strength core material feature called extreme tensile (XT) which provides an early warning for excavators that an underground asset is below.

- ▶ Can be installed near or above buried assets
- ▶ Easy to follow, creating a detectable path above ground
- ▶ For use in open trench applications
- ▶ Does not require batteries and there's no need to hook up an external transmitter or spend time searching for access points
- ▶ The markers work independently, so even if a section of path marking tape is cut or removed, the other markers on the tape will continue to provide an accurate location
- ▶ Available in 6 frequencies, creating a unique identification for each utility type

	Depth	Length	Marker spacing	Tensile strength	Width	Telephone	Power	Gas	Water	Wastewater	Reclaimed water
3M™ EMS Warning Tape 7900-XT Series	Up to 1.2 m	152 m	2.4 m	13 kN	15 cm	7901-XT	7902-XT	7905-XT	7903-XT	7904-XT	7908-XT
3M™ EMS Caution Tape 7900 Series	Up to 1.2 m	152 m	2.4 m	1.6 kN	15 cm	7901	7902	7905	7903	7904	7908

The optimal depth for the XT early warning system is < 2 ft (60 cm) while the embedded EMS markers are locatable < 4 ft (1.2 m).

XT – Extreme Tensile, EMS – Electronic Marking System

3M™ EMS Point Markers

Marking points of interest

Unlike surface features, maps and other methods of recording position, our Point Markers are a point of reference you can depend on.

3M™ EMS Markers:

- ▶ Operate in all soil types; under asphalt, cement, and wet or dry soil
- ▶ Provide easy positive identification with each utility having its own frequency
- ▶ Colour-coded to APWA standards

3M iD Markers can be customised to include customer-specific information:

- ▶ Facility data
- ▶ Material type and size
- ▶ Type of application
- ▶ Placement date

Access all of this information in the field through a 3M™ Dynatel™ iD capable locator, or by uploading and using with your GIS system.

	Detection/read range	Type	Telephone	Power	CATV	General purpose	Water	Wastewater	Gas

3M™ EMS and iD Near Surface Marker

Ideal for marking at shallow depths of 0.6-0.9 m

3M™ EMS and iD Ball Marker

Self-leveling feature, suited for depths of 1.5-1.8 m

3M™ EMS Mini-Marker

Designed for maintaining a stable position after placement at depths of 1.8 m

3M™ EMS and iD Full-Range Marker

Suited for deep applications of up to 2.4-2.7 m

3M™ EMS and iD Disk Marker

Ideal for marking at shallow depths of 1.5-1.8 m

3M™ Dynatel™ Locator 2550XE-iD/2573XE-iD

3M™ Dynatel™ Locator 7550XE/7573XE

Our latest innovation, the Dynatel XE Series Locators allow you to quickly locate underground assets. They are equipped with Bluetooth® wireless technology receivers, along with improved software and GPS capabilities. All models are available both as full kits including transmitter and as stand-alone locators.

- ▶ Receiver with Bluetooth® wireless technology
- ▶ Integrated USB port is compatible with USB Type-C connector
- ▶ Internal GPS data can be saved internally or directly to a memory stick compatible with USB Type-C connector
- ▶ 3M iD Marker write/read/locate capabilities
- ▶ EMS Path Marking Antennas
- ▶ Multiple EMS antennas for maximum locate capabilities
- ▶ Large LCD display with image-driven graphical interface
- ▶ Integrated tone functions
- ▶ Dynatel Locators 2573XE, 2573XE-iD, and 7573XE include fault locating
- ▶ 12 W transmitter

3M™ Locating and Marking Accessories

7000027975

3M™ Ribbed Battery Compartment Cap with liner for 3M™ Dynatel™ M-Series cable/pipe Locators

The cap screws onto the locator handle to help protect the battery.

7000058653

3M™ Rechargeable Battery

Two-lead, 10' (3 m) cable used for direct connection to cable and ground.

7000058654

3M™ 6" (15.2 cm) Dyna-Coupler with pouch

Permits coupling of RF trace tone to large diameter cables, bundle cables, and cables enclosed in accessible non-metallic ducts. For use on cables and conduits with a maximum diameter of 6.9" (17.5 cm).

7000058906

3M™ Rechargeable Battery Pack

For use with 3M™ Dynatel™ 7000XE and 2500XE Series Receiver.

7000057745

3M™ Small Clip 1/4" (6.4 mm) Direct Connect, 5-foot Transmitter Cable, telephone

Two-lead, 5' (1.5 m) cables used for direct connection to conductor and ground. The 9012 cable has smaller Telco style alligator clips with an insulation piercing needle incorporated.

7000057744

3M™ 3" (7.6 cm) Dyna-Coupler

Permits coupling of RF trace tone to cables with a maximum diameter of 3" (7.6 cm).

7000058141

3M™ Small Clip 1/4" (6.4 mm) Direct-Connect Transmitter Cable for all cable/fault locators

Two-lead, 10' (3 m) cable used for direct connection to cable and ground.

7000031716

3M™ 4.5" (11.4 cm) Dyna-Coupler

Permits coupling of RF trace tone to cables with a maximum diameter of 4.5" (11.4 cm).

7000058140

3M™ Large Clip 5/8" (15.9 mm) Direct-Connect Transmitter Cable

Two-lead, 10' (3 m) cable used for direct connection to cable and ground.

7000031432

3M™ Coupler Cable

For use with any Dynatel Transmitter, Receiver, or Coupler: 12' (3.7 m) in length.

7000043006

3M™ Ground Extension Cable

Extends ground capability to 12' (3.7 m).

7000006221

3M™ Dynatel™ Locator Coupler Accessory Kit

Contains a 4001 4.5" (11.4 cm) 3M Dyna-coupler and a 3M Coupler Cable 9011 with a case that can be attached to the transmitter.

7000031431

3M™ Earth Contact Frame

Used only when locating sheath (earth return) faults. It indicates direction to the fault and is color coded to correspond with the Receiver's indicator.

7000058326

3M™ 3" (7.6 cm) Cable Locator Coupler Accessory Kit

Contains a 3001 3" (7.6 cm) Dyna-coupler and a Coupler Cable 9011 with a case that can be attached to the transmitter.

7000031433

3M™ Earth Contact Frame Cable

For use with the 3M™ Earth Contact Frame 3014 for sheath (earth return) fault location; 4' (1.2 m) in length.

7000006166

3M™ Soft Carrying Bag

Carrying bag for the 2500XE and 7000XE series locators.

Product selection and use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product in accordance with all applicable instructions and with appropriate safety equipment, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, limited remedy, and disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement or repair of the 3M product or refund of the purchase price. Warranty claims must be made within one (1) year from the date of 3M's shipment.

Limitation of liability: Except for the limited remedy stated above, and except to the extent prohibited by applicable law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.

Disclaimer: 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, or death. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert. For additional product information, visit www.3M.com.
