The Electrical Tape

For excellent primary insulation and moisture protection

Scotch® Tape 23

Rubber Splicing Tape

Choose Scotch® Rubber Splicing Tape 23 for insulating, splicing, and padding low- to high-voltage cables, especially in outdoor or underground applications. Adding rubber tapes to your toolbox can help reinforce your work for years of maintenance-free service.

Product Highlights:

- Primary insulation for splicing all types of solid dielectric insulated cables through 69 kV
- Self-fusing material provides immediate moisture seals and void-free build-ups
- Removable liner protects from dust and dirt during installation
- Rated for 90°C continuous operating temperature and overload temperatures up to 130°C
- Compatible with common, solid dielectric cable insulation
- Provides extra padding and highly conformable for irregularly-shaped objects
- Weather resistant

Outdoor or
Underground

Moist and Corrosive
Environments

Clean,
Removable Liner

Self-Fusing and
Excellent Stretch
